

I/O INTERFACES

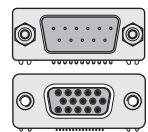

D Subminiature Connectors

- Standard, mini and micro tail setbacks
- Through-hole and surface mount
- Discrete wire components
- Variety of mounting hardware
- Right-angle
- Standard and high density

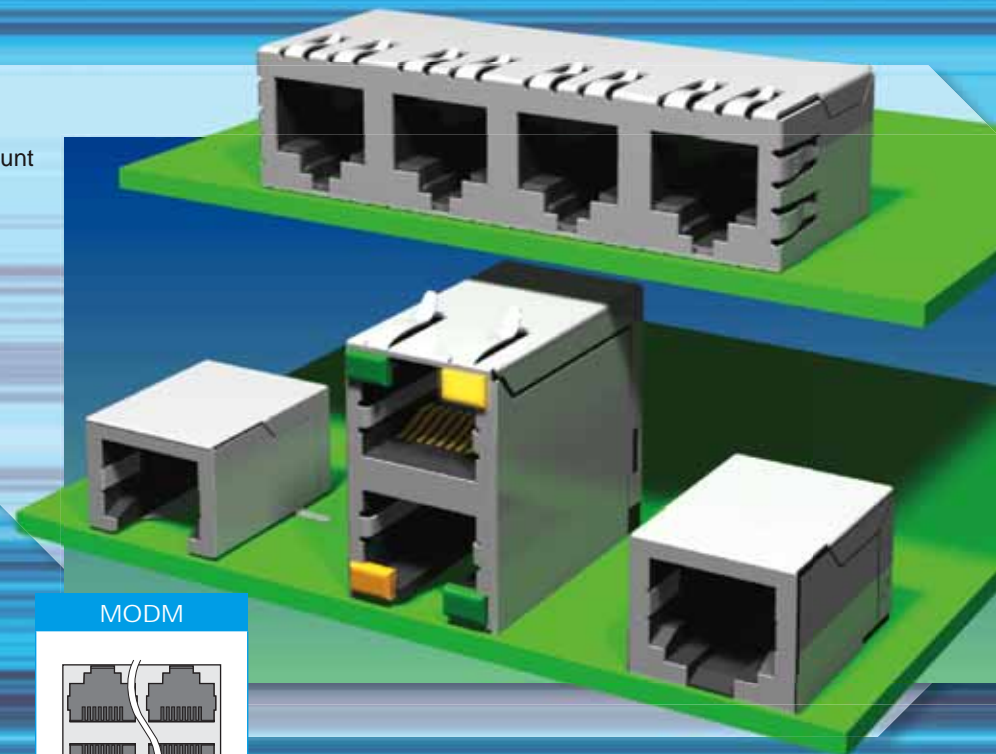

DSM

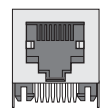

Modular Jacks

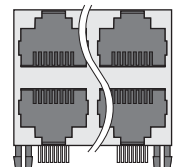

- Through-hole and surface mount
- Single, ganged in-line and ganged stacked series
- Variety of ports available on Ganged Series
- Available with LED
- Right-angle & vertical
- Shielded or unshielded
- Panel grounds available

MODS

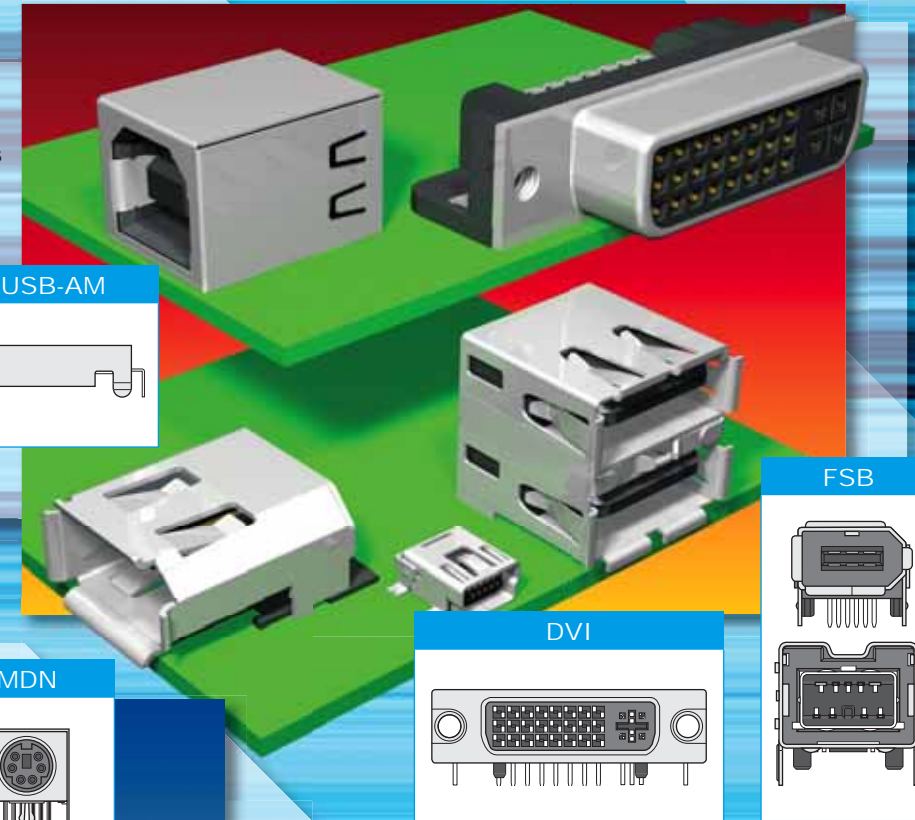

MODM

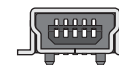

High Speed Serial I/O

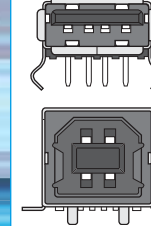

- A and B Type Universal Serial Bus (USB)
- Mini B Type USB
- Male PCB mount USB
- Firewire Serial Bus meets IEEE 1394
- Digital and digital/analog interfaces
- Vertical and horizontal
- Surface mount and through-hole

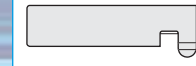

MUSB

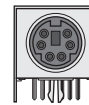

USB

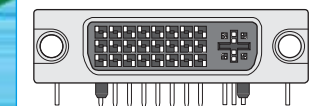

USB-AM

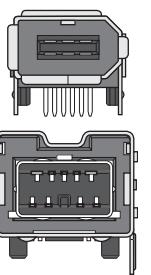

MDN

DVI

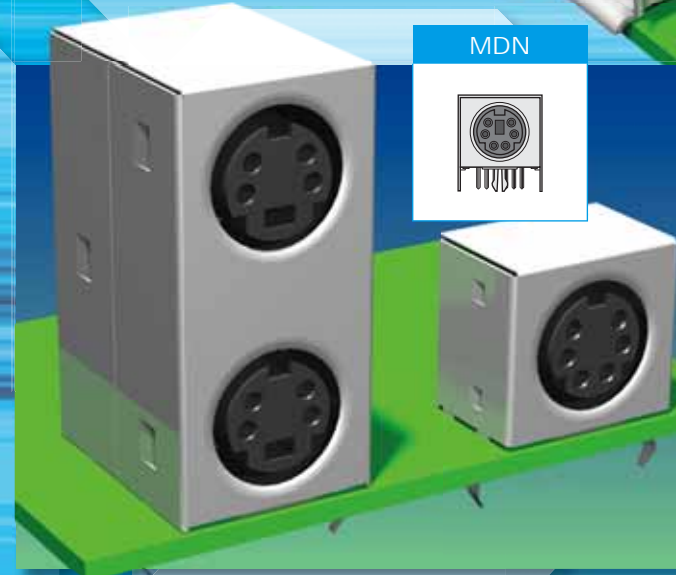

FSB

Circular Miniature DINs

- Single and double port
- 3 through 9 contacts per port - single
- 4, 6 and 8 contacts per port - double
- Polarized and keyed
- Fully shielded
- Slim design available on single port

Broad Custom Capabilities

- Combinations within a series and cross series
- Special platings
- Low profile, elevated and high density designs
- Special orientations
- Special mounting hardware
