# This is the Pomona Zone

Let's face it. Test and measurement data are only as good as the connections between the test instrument and the unit under test.

That's why Pomona Electronics experts provide you with advanced quality and the widest selection – more than 5,000 precision cables, connectors, leads, probes and accessories. You can rely on Pomona for accurate, high-quality, value-packed connectivity. Both today and for the emerging technologies of tomorrow.

- Coaxial cable assemblies
- Connectors and connection aids
- Oscilloscope probes and DMM test leads
- Stock and custom configurations

For a free copy of the new 96-page Pomona catalog, call or visit your local EDGE distributor today.
